

ESSC 2024: Co-creating Future Social Services

---

# Social Inclusion in Smart Cities

Dr. Matthias Berg

# Contesting „Smart Cities“

- Smart Cities are driven by
  - Technology
  - Marketing
  - Economic interests
- Smart City means
  - Rather surveillance than support
  - Rather innovation than people
  - Rather exclusion than inclusion

?

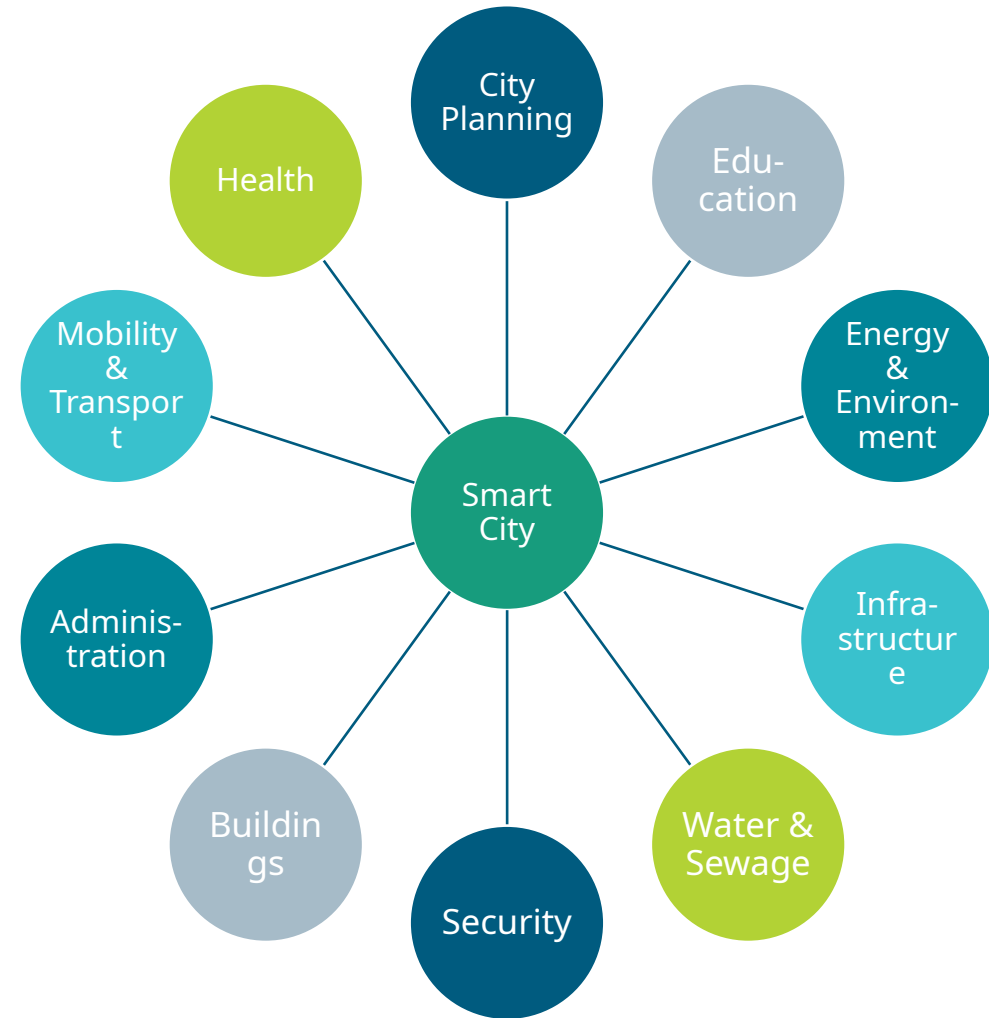

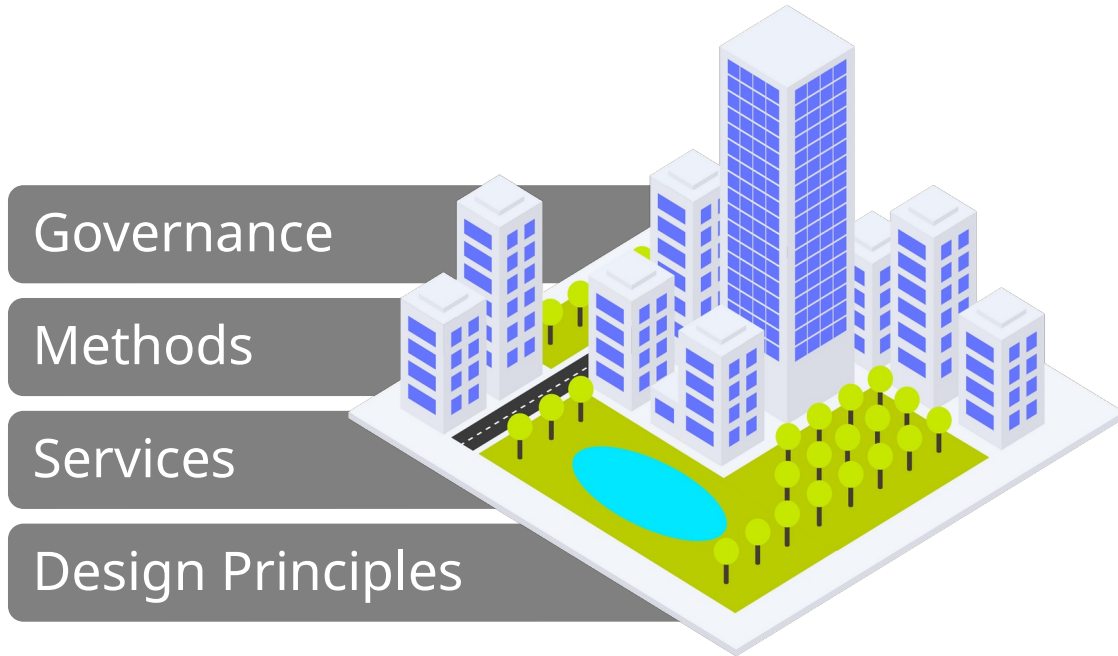

## Smart City

- Use of digital solutions
- For the benefit of inhabitants and business
- Better resource use and less emissions
- Interactive and responsive city administration
- Safer public spaces
- Needs of an ageing population

cf. European Commission

# Smart City and Inclusion

## Touch Points

# Smart City and Inclusion Governance

©BBSR

2021

« Digital transformation needs transparency, participation and co-design »

- Strengthening transparency and democracy
- Ensuring digital participation, integration and inclusion
- Promoting co-design

# Smart City and Inclusion

## Methods

---

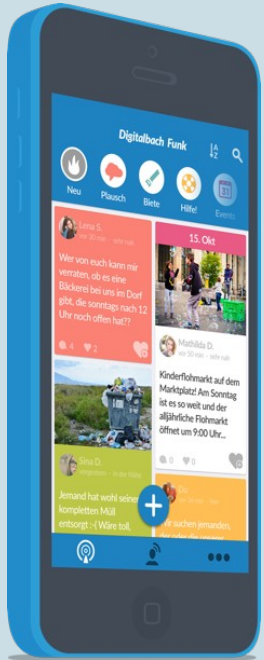

©County of Sankt Wendel

2023

- Smart City Strategy as a joint effort through the participation of various community actors
- Development of digital services through co-creation (e.g. in software engineering)
- Approaches:
  - Digital as well as analogue formats
  - Transparency of outcomes
  - Appreciative

# Smart City and Inclusion

## Digital Services for...

...the  
community

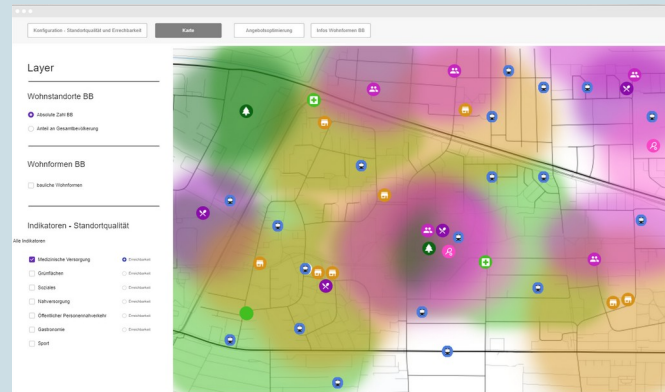

©City of  
Ulm

...  
disadvantaged  
groups

©KL.digital  
GmbH

...an optimized  
provision of  
public services

# Smart City and Inclusion Design Principles

- For the common good
- Purposeful
- User-centered
- Empowering
- Low-threshold
- Usability
- Accessibility

# Smart City and Inclusion

## Call to Action

---

In order to benefit from the Smart City, social service actors should

- Claim visibility
- Get involved
- Explain needs
- Contribute use cases
- Share data
- Collaborate

The background is a solid teal color with a pattern of thin, white, wavy lines that create a sense of motion and depth. The lines are most prominent in the center and fade out towards the edges.
