Implementing the Project in the county

**Goal:** Combat depopulation

**Phases of the project:**
- Diagnosis: “Study on depopulation and population aging” (problems, needs,…)
- Proposals: different indicators of depopulation, innovation and creativity were taken into account
- Implementation: pilot tests. The selected projects had to be new projects, replicable and with elements of innovation

**On of the three selected projects:** Pallars Jussà County Council
Pallars Jussà County Council

Guide of public procurement on how incorporate social clauses: reserved contracts
Challenges

- According to the current state law, the public entities cannot recruit temporal workers.

- Regularization of migrant official documents.

- Need of accompaniment to people with risk exclusion: groups that have never worked or long-term unemployed.

- Need of accompaniment to enterprises.
